Product Development Agreement

Agreement to develop a fully integrated micro-CHP unit for the French residential market, between:

- **Ceramic Fuel Cells Limited**
- **Gaz de France**
- **De Dietrich Thermique**

Collaborative Project, beginning January 2007:

- **Define the specifications and requirements for a French CHP appliance**
- **Integrate CFCL's fuel cell module with De Dietrich Thermique condensing boiler**
- **Gaz de France field trial of prototype unit.**

Gaz de France

Gaz de France is a major player in Europe's energy markets

- **Produces, distributes and sells gas, electricity and services: 13.8 million customers**
- **Europe's No.1 distributor of natural gas**
 - In 2005, sold 749 billion kWh of natural gas
 - Largest natural gas pipeline network in Europe
 - Second-largest natural gas storage capacity in Europe
- **One of the world's top 5 suppliers of liquefied natural gas (LNG)**
- **2005 sales of €22.4 billion, net income of €1.7 billion**
- **53,000 staff, in more than 30 countries**

Diversifying into electricity production, to offer 'bundled' contracts

Focus on distributed generation and fuel cells

- Leads the €30M EU-DEEP program for decentralised energy systems.
- Active member of the EU Commission *Hydrogen and Fuel Cell Technology Program*.
